

### Solar cooker for cooking, barbecuing, baking, roasting and deep-frying

The highly efficient solar cooker is available at any time of the year and within all degrees of latitude. You will be surprised at which short time dishes including cake, meat, stew, pizza, bread or pasta on the solar cooker are ready to serve.

**Solar cooker Premium14**  
Order-No.: 110-0007 **359,00 EUR**

Noble design, operatively sound and greatest possible control comfort.

The high-class quality solar cooker is suitable for families and for small trade in developing countries, e.g. cookshops, dye-works, juice making, drinking water preparation.

The solar cooker is easily and quickly assembled and disassembled, and the swivel-type rack belonging to it allows to direct the cooker towards the sun.

Due to a ceramic **protective layer** the reflecting material is weatherproof and sheltered from saline air as well as from pollution by chemicals.

The rack is made of zinced steel and the reflector frame is made of aluminium.

The solar cooker kit is completely equipped thus integrating the comprehensive installation manual and cooking instructions as well as the fastening means.

**Technical data:**  
Reflector diameter = 140 cm  
Output = 700 Watt at clear sky (1 litres of water are boiled within 9 minutes.)  
Weight, packing included: 18,5 kg  
Packing dimensions: 117 x 55 x 10 cm

Back view of the solar cooker. The reflector is protected from damage by a safety roll bar (see arrow)

**Solar cooker Premium11**  
Order-No.: 110-0003 **289,00 EUR**

Design and finish same as with solar cooker **Premium14**, however with a reflector diameter of 110 cm.

In comparison to solar cooker **Premium14** the complete solar cooker **Premium11** is made of aluminium.

The solar cooker kit is completely equipped thus integrating the comprehensive installation manual and cooking instructions as well as the fastening means.

**Technical data:**  
Reflector diameter = 110 cm  
Output = 450 Watt at clear sky  
(1 litres of water are boiling within 13 minutes), Weight, packing included: 12 kg  
Packing dimensions: 117 x 58 x 12 cm

Due to its high-grade dual-usage packing, the solar cooker is well protected in transport.
